

The 8th China Model Exposition (in Beijing)

Namiki Precision Jewel Co., Ltd participated in the 8th China Model Exposition. The 8th China Model Exposition in Beijing was held from October 3rd to 6th 2008. This was our first participation in the exposition, which had been held seven times until now. Though domestic Hobby Shows are reducing in scale year after year, this exposition was held in a great success with many exhibitors. We would like to thank you for visiting our booth and being interested in our products during the exhibition.

Followings are pictures of the 8th China Model Exposition and our main products for the exhibition.

Namiki's Main Products for the 8th China Model Exposition (micro motors)

Our exhibitions were high performance small coreless motor and brushless motor using in RC servo and so on. They include ϕ 1.5mm world's smallest micro geared motor made by using our high-precision processing technology.

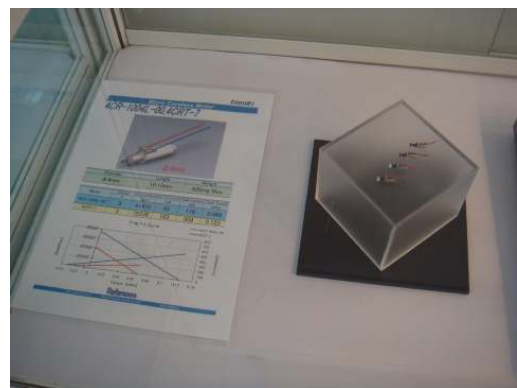

More details are offered in our Website. <http://www.namiki.net/product/index.html>

We also exhibited high power small and light brushless direct drive motor. (Next Page)

Namiki's Main Products for the 8th China Model Exposition
(lightweight and high output power motor)

With wide range of products such as the world's smallest micro geared motor to the high powered small and light brushless motor for large RC Airplane application along with controllers, we were able to attract many interests and talk about possibility of wide application.

We would like to endeavor to higher quality of product development, concluding our main products like world's smallest micro geared motor, small coreless motor and brushless motor.

Furthermore, we continue our R&D of high output power direct drive motor, and its controller.

Small and light brushless direct drive motor with high power,
and its controller for the exhibition

Model name : BLM-10803-132
Output power ; 8Hp
Operating voltage / current : 24-25V/100A
size : W130 × H130 × L120
weight : 3.6Kg

Model name : BL-ESC-100V120A-CP-01
Input power ; 7.5Kw
Operating voltage / current : 24-75V/100A
Size : W60 × H40 × L130
Weight : 0.24Kg

Model name : BLM-10803-140
Output power ; 13Hp
Operating voltage / current : 24-75V/100A × 2
size : W140 × H140 × L240
weight : 6.95Kg
